India–UK Sign Historic Free Trade Pact to Boost Bilateral Growth:

India and the UK signed a landmark Free Trade Agreement in May 2025, aimed at enhancing bilateral trade, job creation, and strategic cooperation. The deal slashes tariffs on key goods—textiles, autos, whisky, and pharma - while expanding market access for Indian IT and UK financial services. It includes provisions on digital trade, intellectual property, and professional mobility, making it the UK's most comprehensive post-Brexit trade pact. The FTA is projected to add over £20 billion to annual trade and deepen ties between two major global economies.

SBI Board approves \$3 Billion fundraising in FY26 to fuel growth:

In a major move to bolster its capital base, State Bank of India the country's largest public sector bank has approved plans to raise up to **\$3 billion** in long-term funds during FY26. The capital will be raised via public or private placement of senior unsecured notes in major foreign currencies under Reg S and/or Rule 144A of the U.S. Securities Act. SBI is witnessing strong credit demand across infrastructure, manufacturing, and retail. The fundraise supports its proactive strategy to ensure liquidity, manage rate risks, and sustain lending strength in a dynamic economic environment.

Nifty's Valuation Premium Shrinks as Yield Spread Turns Negative:

The earnings yield on Nifty 50 index has fallen by 64 basis points, while the 10-year U.S. Treasury yield has risen by 27 basis points over the same period. This shift has caused the yield spread - the difference between India's equity earnings yield and the U.S. risk-free rate to slip from a 21-month high of 64 basis points at the end of February to -18 basis points in late May, marking its lowest level since April 2024. Historically, Indian equity valuations have shown an inverse relationship with US bond yields.

GST Collections Cross ₹2 Lakh Crore for Second Month, Up 16.4% YoY:

India's Goods and Services Tax (GST) collections in May 2025 crossed the ₹2.01 lakh crore mark for the second consecutive month. This reflects a 16.4% year-on-year growth, signaling strong economic activity, better compliance, and sustained consumption momentum. The continued surge in GST collections presents a promising outlook for the fiscal year ahead. The government has projected an 11% increase in GST collections for FY26.
